Area of Expertise:

We are team of multi-disciplined professionals having the knowhow, experience and resources for planning, designing, managing and implementing construction project, handling both the civil and mechanical works.

We aim to provide the following services:

Construction
Design / Planning
Project Management

Expertise exists in the areas of:

Slip-forming
Structural Steel works
General Construction

We plan to project ourselves as a contracting firm, having the means and the capability of undertaking specialized construction works either as an independent contractor, dealing directly with the client, or as a specialized sub-contractor / consultant to the main contractor.

- **SLIPFORMING:** STACK / CHIMMNEY, GRAIN STORAGE SILO, HIGH RISE STRUCTURE

Our special interest and expertise in the field of slipping of forms. Slip-forming is particularly a useful method of construction for tall R.C.C. structures as it saves a great deal of time and is much more economical than the conventional construction practices.

Some of the structures which are well suited to this type of construction technique include:

- Silos,
- Stacks / Industrial Chimneys,
- Cooling / water towers.
- Core of High Rise Buildings,
- Ventilation shafts for tunnels, Bins, Silos etc.
- Observation, guidance, communication towers etc.

CLIENTS

We are dedicated to developing real partnerships with each of our client organizations. We make it a priority to truly know each of our client's business and do all we can to always work with their best interests in mind. Our sincerity in this regard has helped us to maintain countless long-term industry relationships.

Our valuable clients are as follows:
